Come Join Our Team – We Need You!

Position: **Industrial Cleaner** (aka Our Protector against Covid-19)

Contract: **15 – 20 hours per week, Mon – Friday (occasional Saturdays), 6 months**

Location: **Spiddal, Co. Galway**

About us: Aran Biomedical is a trusted partner in design, development and manufacture of implantable medical devices. We are looking for 2 people to come on board on a part-time basis as Industrial Cleaners. These positions are really important in helping us avoid the spread of Covid-19 and keeping everyone safe. While we are a close-knit team, we are socially distancing from each other, and will ensure the same for you.

What you'd be doing: Cleaning down and disinfecting of common touch areas such as the banisters and door handles regularly throughout the workday, cleaning the kitchen, bathrooms and office areas, emptying the rubbish bins. Reporting any health and safety concerns immediately so we can address them. We'll provide a cleaning schedule and training.

Skill's you'll have: Previous professional or industrial cleaning experience would be super. Honestly, we are looking for 2 people who have good attention to detail, basic health & safety knowledge, understand safe working practices, can work on their own initiative, friendly, great work ethic and have good spoken and written English.

Where to next: If you are interested in applying, or would like more information, please contact us at HR@aranbiomedical.com
